# ART OF FALLIN'

A TEAM GYPSY PUBLICATION

THE First EVER Edition

Issue 1

Free of charge

# Words

We the members of Team Gypsy decided that it was time to let people Know who we were. Thru a collection of thoughts and murmurs was born the following rag Art of fallin. To some this is a joke to others it is a dedicated effort. We realize that it's not as Polished an effort as others, but we don't care. Raw or Polished its an effort never the less. So simply acknowledge us or ignore us it doesn't matter we'll still be here. Thank you for tolerating that. Enjoy your flight! x

Well the 2nd annual contest at Trashmore went off quite well other than the fact that the cops outnumbered the spectators. The skating was quite rad. The ams put on a show. Mike Cresini who placed first did some way hot finger flip inverts. Jeff Jones placed second due to his Benny Hanas and varial frontside airs. Henry Guitierrez placed third followed by Buck Smith. Well enough of the Ams and now to the Pro's. I won't tell you who made the cut and who didn't. I'll just tell you about the top three placers. The contest was between Jeff Phillips Tony Hawk, and Steve Caballero. Jeff Phillips proved that he could dominate the fiberglass surface. Tony had a heavy slam and was determined to make up for it. He did every trick possible. Then came Cab, his 10 ft. plus b-side airs and unit gained him 3rd place. By the way it was real damn hot!

# HEAR THE FUTURE...NOW

## THE CURE

The Cure, one of the best British rock bands of recent years, have finished their latest album, "Standing on the Beach." Many of the major rock radio stations avoid playing the Cures new and different type music, which is why many people know very little about them. The Cures music still appeals to many people and especially skaters. Side one of the Cures "Standing on the Beach" has some of their greatest hits while side two contains new and unreleased music. The Cures music is really great and should be heard by everyone.
